A working group has been established to work on the FIRE Carriers covenant. The covenant is an expression of how, in practical ways, YTU will promote awareness of Aboriginal spirituality, cultural recognition and awareness, and working for practical reconciliation and justice. Such a covenant is a work in progress, regularly reviewed and updated.

The FIRE Carriers Symbol has been placed in the YTU Common Room near the Message Stick. It is a beautiful glass symbol in a timber base and is shown here against the background of the Aboriginal flag.
